Cornell wants to **help you and your neighbors create more green space for birds**, but we need your help. Recruit your neighbors, map your yards and other green areas, and be entered to win an opportunity to work with us on **schematic landscape plans and illustrative drawings for your neighborhood.**

Join your neighbors on **YardMap.org** and win a chance to work with the student-professor YardWorks Studio team from the Cornell University Department of Landscape Architecture on **habitat-friendly design concepts for your neighborhood and your yard.**
